RETAIL

Protect the store. Serve the customer.

Phones, network cabling, and video security for shops, showrooms, and dealerships.

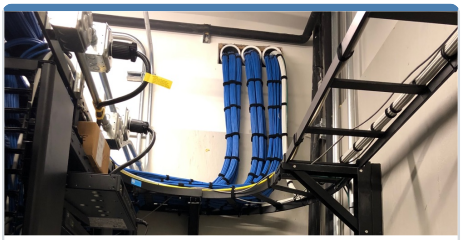

Every missed call is a missed sale, every network hiccup stalls the register, and every blind spot costs inventory. SCTi wires, connects, and secures your store as one system, with one team to call when something needs attention.

VOICE

Business Phone Systems

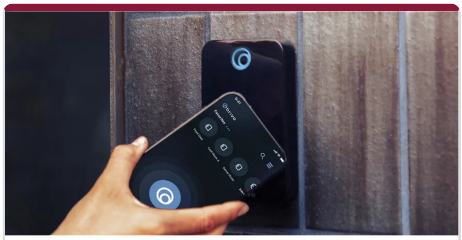

- Auto attendant and call routing so customer calls never ring out
- Overhead paging for the sales floor and back of house
- Calls follow managers on mobile when they step off the floor

DATA

Structured Cabling & WiFi

- Reliable cabling for point-of-sale, scanners, and guest Wi-Fi
- Clean installs for new stores, remodels, and expansions
- Wiring closets organized so problems get fixed fast

SECURITY

Security & Access Control

- UniFi cameras with AI people and vehicle detection
- Check every camera from your phone, from anywhere
- Brivo access for stockrooms, offices, and after-hours deliveries

- ✓ Serving Central Texas since 1987
- ✓ One team for phones, cabling & security
- ✓ Licensed Texas security contractor
- ✓ Same-day scheduling across the Texas Triangle
