HOUSES OF WORSHIP

Focus on your mission, not your systems.

Simple, dependable phones, cabling, and security for churches and ministries.

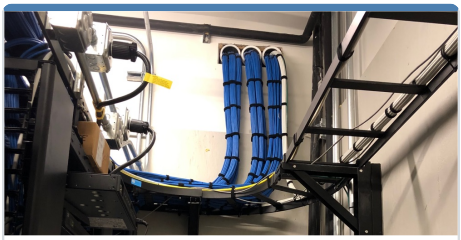

Churches run on volunteers and careful budgets, so systems need to be easy to use and easy to support. SCTi installs phones, network cabling, and security that staff and volunteers can manage, with a local team behind them.

VOICE

Business Phone Systems

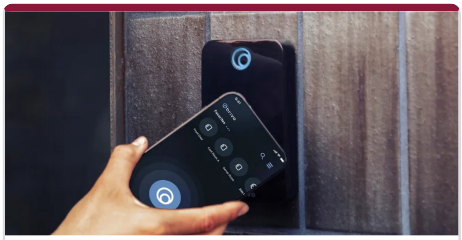

- Office phones and voicemail that reach staff and ministry leaders
- Calls forward to pastors on mobile during visits and after hours
- Paging for the office, classrooms, and fellowship hall

DATA

Structured Cabling & WiFi

- Cabling for offices, classrooms, and streaming and sound booths
- Reliable Wi-Fi coverage for sanctuaries and gathering spaces
- Additions and remodels wired without disrupting services

SECURITY

Security & Access Control

- Brivo schedules that unlock doors for services and lock them after
- Give volunteers access only when they need it
- UniFi cameras for parking lots, nurseries, and entrances

- ✓ Serving Central Texas since 1987
- ✓ One team for phones, cabling & security
- ✓ Licensed Texas security contractor
- ✓ Same-day scheduling across the Texas Triangle
